THE ATV CLUB HAS FOUND EVERYTHING from televisions to microwaves, toilets to other plastic bottles and trash along Becker County trails. Each year they clean up the trails, hoping to keep them clean for residents and tourists.

Woods-N-Wheels ATV Club helps clean up county trails

On April 22, Woods-N-Wheels ATV Club held their fifth annual clean and ride, with 15 members helping out this spring.

The local ATV club cleaned logging roads and trails as part of their annual spring clean up effort in Round Lake Township.

Many times as members are riding, they come across garbage that has been dumped along wooded roadways. This time, many items such as a television, microwave, urinal, empty laundry bottles and more were picked up enough to fill one and a half pickup boxes.
